CITY OF STAMFORD DEPARTMENT
OF NURSING AND DENTAL
HYGIENE SERVICES

2014-2015

Public Health

Public Health continues to lead the way in building healthy communities, achieving health equity, and improving the quality of life for all in the community.

Evidence and data drive the practice of public health nurses and dental hygienists who translate knowledge from individuals and population groups through direct care, health prevention programs and advocacy.

This is accomplished through programs in public health nursing, school nursing, and school dental health.

Breath of Fresh Air

The "**Breath of Fresh Air**" program had 14 new clients and visited this group 11 times, bringing educational materials along with home cleaning and dust prevention tools.
