

March 25, 2022

Mr. Ted Ferrarone, Co-President
Building and Land Technology
One Elmcroft Road; Suite 500
Stamford, CT 06902

Re. Building Inspections

Dear Mr. Ferrarone,

As previously communicated to you in our written communication on March 18th, 2022, our action plan included the following:

- Right of access to permit the City's independent engineer to field review all exposed concrete slabs for these structures or other areas as determined by the City's independent engineer

In support of that element of the plan, the City will require access to inspect the following locations to determine whether additional inconsistencies exist between submitted documentation and actual conditions that might implicate public safety concerns:

1. 301 Commons Park South
2. 201 Commons Park South
3. 101 Washington Boulevard
4. 100 Commons Park North
5. 880 Pacific Street
6. 900 Pacific Street
7. 850 Pacific Street
8. 2 Harbor Point South

Details related to the scope of work of these inspections will be submitted to you next week. We request that you provide this letter to residents within the next 24 hours.

We look forward to your continued cooperation. Any questions related to this investigation can be submitted to Matt Quinones, Director of Operations at mquinones@stamfordct.gov.

Sincerely,

A handwritten signature in cursive script, appearing to read "Caroline Simmons".

Caroline Simmons
Mayor
