**RE: Notice of Traffic Cameras**

---

In accordance with the Camera Review Committee's Policies and Procedures, Section 7, please accept this letter as a request from the Transportation, Traffic and Parking Department, for additional traffic cameras to be used for Traffic Monitoring.

The department currently uses traffic cameras that are placed throughout the city to monitor the flow of traffic and allow the department to effectively manage traffic and respond to traffic issues. According to Section 7.1, cameras used for the purpose of Traffic Monitoring shall have a surveillance level of 3 (disclosed and with or without a Public Feed, but a Monitored Surveillance.)

During the period when the Camera Review Committee was inactive, the traffic camera program continued to install cameras in the city at intersections that are critical to ensure the efficient movement of traffic, following the previously established guidelines. The purpose of this request is to bring all existing traffic cameras into compliance with section 7.2.

The Locations of the cameras are attached.

Thank you for considering this request. If you have any questions, please call me directly at 203-977-5675.

# EXISTING TRAFFIC CAMERA LOCATIONS

No.	Intersection ID	Main Street	Side Street
1	110	Cove Rd	Seaside Ave
