Mr. Carmine Speranza, Jr.  
Fire Marshal  
Fire Department

Dear Mr. Speranza:

The Board of Ethics considered the questions raised re a video camera and foam donated to the Fire Department, as described in your letters of January 29 and March 11, 1986, and enclosures therein.

Since the donations were made to the Department and not to any individual, the Board of Ethics does not see any violation of the Code of Ethics.

It must be stressed, however, that these, and any other materials donated to the Department, must be used for official business only and must not be put to any personal use.
