**October 27, 2023**

**Summary of Work Davenport Elementary**

The City is pursuing a number of capital improvement initiatives at Davenport Elementary School. One of these projects is multiple restroom renovations with a focus on accessibility compliance and asbestos abatement. The project's anticipated path was two phases each in the amount of approximately \$1,500,000 for restrooms and one phase for abatement \$647,975. Authorizations occurred in 2021, 2022, 2023 and with a third request anticipated for 2024.

The City submitted for non-priority grant August 10, 2023 and received guidance from the State of Connecticut on October 5, 2023 that rather than apply as a non-priority application the City should seek a priority grant application. Typically the threshold for priority grants are dollar amounts exceeding five million dollars. The proposed total project with all phases combined is \$3,767,802 anticipating 60% grant reimbursement.

A priority application made June 30, 2024 with State fiscal authorization in 2025 would delay the construction to summer of 2026 therefore the City of Stamford is seeking the additional grant authorization now to expedite a fiscal authorization by the legislature in June 2024.

Work at Davenport utilizes two accounts:

CPB948                      \$779,378 (Bonds)  
CP4000007                \$5,770,930 (\$3,330,930 Grants / \$2,740,000 Bonds)

A 'by project' allocation for Davenport Elementary School is as follows showing a need of \$1,259,662 in Grants which is required to compete both phases of the project:

	<b>Bonds</b>	<b>Grants</b>	<b>Total</b>
<b>CP4000007</b>	\$2,740,000	\$3,030,930	\$5,770,930
<b>CPB948</b>	\$779,378	\$0	\$779,378
Roof	\$1,353,255	\$2,029,910	\$3,383,165
Switchgear/Electrical	\$359,004	\$0	\$359,004
Restrooms	\$1,247,930	\$1,871,896	\$3,119,826
Abatement/Flooring	\$259,189	\$388,786	\$647,975
HVAC	\$300,000	\$0	\$300,000
<b>Total</b>	<b>\$3,519,378</b>	<b>\$4,290,592</b>	<b>\$7,809,970</b>
	<b>\$0</b>	<b>(\$1,259,662)</b>	<b>(\$1,259,662)</b>

## 4.0 General Physical Condition Rating

The general physical condition ratings identified below are based on StudioJAED's visual inspection and overall impression of the Property's major building systems assessed as defined in the Executive Summary, Section 2.0.

MAIN BUILDING		Condition Rating		
		Good	Fair	Poor
1	Building Envelope		X	X
2	Interior Architecture		X	
3	Mechanical Systems		X	
4	Electrical Systems		X	
5	Plumbing Systems		X	X
6	Fire Alarm / Protection Systems	X		
7	Site Improvements		X	

### 3.4 Plumbing Systems

#### Main Building

Some plumbing systems have been renewed in the years following original construction, the latest of which are approximately noted as:

- Domestic Water Heater and Circulation Pump – 2016
- Classroom/Residential Sinks – 2020
- Electric Water Cooler/Bottle Fillers – 2016

Some plumbing systems primarily date to original construction:

- Domestic Water Piping System
- Sanitary Piping System
- Plumbing Fixtures

All major plumbing systems, other than the Classroom Sinks should be replaced in the 10 year study period.
