Hi Melanie,

Both parks are open to anyone, unless restrictions are created for Scofieldtown Park. As I have mentioned, I predict that it will be a bigger project than anyone anticipates to coordinate instituting a passcode system. Or maybe Kevin knows something that I don't – I guess we can discuss it on Wednesday if you would like to.

Take care,
Erin

Erin,

Thanks for sending. I opened the email, got distracted and then forgot about it.

I think we should review at our next meeting with the other Commissioners what they think. I agree with Mike that they are fine on the whole, but Aris does have some questions in red.

Also, maybe we could change the rules for the existing Stamford Dog Park to have both parks with the same rules since the existing sign looks pretty beat up?

Do we need to state anything about being a resident of Stamford or are both dog parks open to anyone (until scofieldtown is figured out)?

Best,

Melanie Hollas
Stamford Parks & Recreation Commission Chair

Hi Erin

The majority of these rules work for me. Minor changes will be needed if, as planned, we require dog owners to reg and pay a small yr fee to access Scofieldtown.

Thanks

Mike

Subject: dog parks

Hello,

We are about to put the Courtland dog park out to bid, and we are finishing the bid documents for the dog park in Scofieldtown Park.

Aris is designing both. And true to his attention to detail, he put together a draft list of rules for the parks (see attached). Also, the Stamford Dog Park website has rules on their homepage: [Stamford Dog Park - Fairfield County Dog Parks](#) Aris's list is based on the rules posted in the Courtland dog park, but he edited them.

Would the PRC be willing to use these as a basis and finalize rules for the 2 parks, which could probably vary from one another slightly?

Thank you very much, and see you next week,
