Subject: Lione Park Food Tents and Parking Enforcement

Good morning,

I hope this email finds you all well. I am writing to bring to your attention an urgent and pressing matter at Lione Park. There are two full-size tents adjacent to one another, one by the side of the park and the other next to someone's property. This morning, at 7:00 a.m., I walked around the park and observed people already cooking to set up their food tents.

The tents shouldn't be allowed. One tent is on the street, and the other blocks people from walking through the side of the park. Selling food without a license is a health hazard.

Signs on the parking spaces state that cars will be towed from 10/1 to 10/31. This also needs to be enforced.

One of the residents was cleaning his property because of the trash that was left the night before.

Let's not forget the loud music, the drinking, marijuana smoking, and people urinating in plain view.

The residents who live by the park are being significantly affected by these unauthorized tents, and their activities. Their quality of life is being compromised. They deserve the same peaceful and enjoyable environment as everyone else. I feel we have the opportunity to make the necessary those changes while the repairs are being made to the park. This could only be achieved by a joint effort by all.

I attached three photos to this email.

Sincerely,

Jeffrey
