____ Facility is regulated

____ Facility is not regulated

Disclaimer: This checklist is a tool to help you determine whether your facility will be a non-regulated facility. It is not a complete list of all regulations that may apply to your business. You are responsible for knowing and complying with all applicable state, federal and local.

Regulated Activity List

From the following list, check **all** regulated activities being conducted at the facility or activities proposed for the facility.

Regulated Activity: There are exceptions within each regulated activity. For a description of each regulated activity see Section 2, Definition #34 "Regulated Activity", on page 5 of the Aquifer Protection Area Regulations.

- (A) Underground storage or transmission of oil or petroleum
- (B) Oil or petroleum dispensing for the purpose of retail, wholesale or fleet use
- (C) On-site storage of hazardous materials for the purpose of wholesale sale
- (D) Repair or maintenance of vehicles or internal combustion engines of vehicles
- (E) Salvage operations of metal or vehicle parts
- (F) Wastewater discharges to ground water other than domestic sewage and stormwater
- (G) Car or truck washing (unsewered)
- (H) Production or refining of chemicals
- (I) Clothes or cloth cleaning service (dry cleaner)
- (J) Industrial laundry service (unsewered)
- (K) Generation of electrical power by means of fossil fuels (power plants)
- (L) Production of electronic boards, electrical components, or other electrical equipment
- (M) Embalming or crematory services (unsewered)
- (N) Furniture stripping operations
- (O) Furniture finishing operations
- (P) Storage, treatment or disposal of hazardous waste under a RCRA permit
- (Q) Biological or chemical testing, analysis or research (unsewered)
- (R) Pest control services
- (S) Photographic finishing (unsewered)
- (T) Production or fabrication of metal products
- (U) Printing, plate making, lithography, photoengraving, or gravure
- (V) Accumulation or storage of waste oil, anti-freeze or spent lead-acid batteries (recycling facility under a state DEP General Permit)
- (W) Production of rubber, resin cements, elastomers or plastic
- (X) Storage of de-icing chemicals
- (Y) Accumulation, storage, handling, recycling, disposal, reduction, processing, burning, transfer or composting of solid waste (under a state DEP permit; a solid waste facility, landfill, transfer station, composting facility, processing center)
- (Z) Dying, coating or printing of textiles, or tanning or finishing of leather
- (AA) Production of wood veneer, plywood, reconstituted wood or pressure-treated wood
- (BB) Pulp production processes

If you checked a listed activity above, indicate if you meet one of the following exclusions.

1. The following are not regulated activities:

Any activity conducted at a residence without compensation

any activity involving the use or storage of no more than two and one-half (2.5) gallons of each type of hazardous material on-site at any one time, provided the total of all hazardous materials on-site does not exceed fifty-five (55) gallons at any one time

any agricultural activity regulated pursuant to section 22a-354m(d) of the Connecticut General Statutes

any activity provided all the following conditions are satisfied:

1. such activity takes place solely within an enclosed building in an area with an impermeable floor,
2. such activity involves no more than 10% of the floor area in the building where the activity takes place,
3. any hazardous material used in connection with such activity is stored in such building at all times,
4. all waste waters generated by such activity are lawfully disposed through a connection to a publicly owned treatment works, and
5. such activity does not involve (i) repair or maintenance of internal combustion engines, including without limitation, vehicles, or equipment associated with such vehicles, (ii) underground storage of any hazardous material, or (iii) above ground storage of more than one hundred and ten (110) gallons of hazardous materials

any activity solely involving the use of lubricating oil provided all the following conditions are satisfied:

1. such activity does not involve cleaning of metals with chlorinated solvents at the facility,
2. such activity takes place solely within an enclosed building in an area with an impermeable floor,
3. any hazardous material used in connection with such activity is stored in such building at all times, and
4. such activity does not involve (i) repair or maintenance of internal combustion engines, including without limitation, vehicles, or equipment associated with such vehicles, (ii) underground storage of any hazardous material, or (iii) above ground storage of more than 110 gallons of such lubricating oil and associated hazardous waste

any activity involving the dispensing of oil or petroleum from an above-ground storage tank or tanks with an aggregate volume of 2000 gallons or less provided all the following conditions are satisfied:

1. such dispensing activity takes place solely on a paved surface which is covered by a roof,
2. the above-ground storage tank (or tanks) is a double-walled tank with overfill alarms, and
3. all associated piping is either above ground, or has secondary containment

2. Provide further explanation why activity is or is not regulated.
