RE: No Student/Children Occupancy during Asbestos Abatement Activities
Davenport Elementary School
1300 Newfield Avenue, Stamford, Connecticut

Dear Mr. Dahlem:

On behalf of the Superintendent of the City of Stamford Public Schools, I am writing the Connecticut Department of Public Health (CTDPH) to inform the CTDPH of asbestos abatement scheduled to be conducted during no student/children occupancy at the above referenced facility.

Asbestos abatement is scheduled to be conducted Thursday, August 15, 2019, through August 20, 2019. Abatement activities are being conducted under a Project Work Plan written by Ms. Meredith Febbraio of Tighe & Bond, Inc. Ms. Febbraio's CTDPH Project Designer license number is #000351. The abatement contractor is A.A.I.S., Inc.; a State of Connecticut Department of Health licensed Asbestos Abatement Contractor (license #000017).

Abatement is scheduled to commence within classroom 16 closets and includes asbestos abatement of 400 square feet of drywall and associated asbestos-containing joint/taping compound. All abatement activities will have project monitoring services performed by a Tighe & Bond project monitor licensed by the CTDPH.

Should you have any questions regarding this project, please contact Meredith Febbraio, Tighe & Bond, Inc., at 203-712-1140.

Sincerely,

Kevin McCarthy
Facilities Manager
Stamford Public Schools
